- Computer Information Technology
- Computer Programming
- Office Systems
- Real Estate

AAS Early Childhood Education

AAS Architectural Technology
AAS Human Services Technology

AAS Allied Health Technologies**

AAS Hotel and Restaurant Management

AAS Culinary Technology

AAS Travel and Tourism Management

AAS Baking and Pastry Arts

AAS in Biotechnology

UNC Greensboro

Nursing

Bryan School (any concentration)

Birth-Kindergarten (licensure)*

Early Care and Education*

Elementary Education

Special Education (general)

Auditory/Oral Birth-Kindergarten

Interior Architecture

Social Work

Community Health Education

Health Studies

Hospitality and Tourism

Management

Biology (any concentration)

* These programs also have an online option.

**Allied Health majors:

- Criminal Justice Technology
- Dental Hygiene Technology
- Early Childhood Education
- Emergency Medical Science
- Fire Protection Technology
- Health Information Technology
- Healthcare Management Technology
- Human Services Technology
- Medical Assisting Technology
- Medical Laboratory Technology
- Medical Sonography
- Nuclear Medicine Technology

4/10/2020

- Nursing
- Occupational Technology
- Opticianry Technology
- Physical Therapist Technology
- Radiation Therapy Technology
- Radiography Technology
- Respiratory Care Technology
- Speech-Language Pathology
- Surgical Technology

2Plus Frequently Asked Questions

Q: What is the 2Plus program?

A: 2Plus is an admissions program to help students who have completed certain AAS degrees from participating North Carolina community colleges to transfer to UNCG into specific, corresponding majors with advanced standing. Not all AAS degrees are eligible. Please review the above list of AAS degrees for which there are agreements and their corresponding majors at UNCG. Students admitted through 2Plus must major in an area approved under the 2Plus agreement. Students wishing to pursue majors outside of the agreement are not eligible for 2Plus and should apply as regular transfer students.

Q: Can I complete my bachelor's degree in two years?

A: It depends on which 2Plus program you are entering. Some 2Plus programs can be completed within two years but most require more time.

Q: Will I be a junior when I begin at UNCG?

A: While many 2Plus students enter UNCG with junior standing, this status is not guaranteed. Class standing at UNCG is based on a student's credit hours. A junior at UNCG has between 60 and 89 credit hours. 2Plus credits are determined by specific courses completed for the AAS degree and transferred course-by-course, not as a package. Therefore, some 2Plus students will begin at UNCG with class standing below junior status. Entering UNCG as a junior does not guarantee degree completion in 2 years. 2Plus students, like regular transfer students, must complete all course requirements, either through transfer credit or successful course completion, and reach a minimum of 122 hours in order to earn a bachelor's degree from UNCG.

Q: Do I have to complete general education requirements at UNCG?

A: Yes. You will need to complete all of the general education requirements and departmental requirements in order to earn the bachelor's degree. Your transfer credits may satisfy some general education requirements and some departmental requirements. You can complete a CAPP Report once you are admitted to see what courses are satisfied with your transfer credits and which courses need to be completed for the bachelor's degree.

Q: Do I have to complete my AAS before beginning at UNCG?

A: Yes. Students applying and/or admitted through 2Plus must complete all AAS degree requirements and provide an official transcript to UNCG showing the degree

awarded. Students are not admissible through 2Plus until the degree has been awarded.

Q: I received a package of elective hours for the completion of my AAS degree. What happens to these elective hours?

A: All 2Plus students receive a package of elective hours for the completion of the AAS degree. The number of hours received depends on the AAS degree and the major pursued at UNCG. These elective hours are meant to compensate for lost technical credits from the AAS in the transfer to UNCG. These hours help students move closer to the 122-hour minimum required (for most majors) to earn a bachelor's degree from UNCG; however, these elective hours do not count toward any departmental requirements. 2Plus students must complete all courses required for the major that are not satisfied by transfer credits.

Q: Who will be my advisor?

A: For your first semester at UNCG, your academic department will provide an advisor to discuss registration for your first semester courses. Once you are admitted to UNCG, you can contact your major's department at UNCG to request an advising appointment. During your first semester, a permanent advisor within your major will be assigned to you. You can find your advisor's name through your UNCGenie account once the advisor has been assigned.

Q: What if I want to change my major?

A: 2Plus majors are directly connected to the specific AAS degree completed. 2Plus students are admitted exclusively to specific majors and not to the university as a whole. 2Plus students can change their majors within the parameters of the 2Plus agreement but not outside of the agreement. For instance, a student with an AAS Business Administration may change his/her major to any major offered within the Bryan School of Business and maintain his/her 2Plus admissions credits. However, if you choose to change to a major outside of the 2Plus agreement, you will lose 2Plus credits and must be admissible as a regular transfer student, which includes the submission of an official high school transcript. You will not need to resubmit an application. All major changes must be approved by the Admissions Office.

Q: How do I know how many credits will transfer?

A: Transfer credits are reviewed once a student has applied to UNCG and official transcripts have been received. Students will receive a Transfer Equivalency Worksheet (TEW) from the UNCG Registrar's Office showing specific classes that transfer and their UNCG equivalents, plus the total number of hours transferred.

Q: I have completed my AAS. Can I return to the community college to complete more classes toward my bachelor's degree at UNCG?

A: Once you have completed the course work and graduated from the community college with your AAS, you cannot take additional technical classes – classes that do not transfer except as part of the 2Plus agreement – for transfer credit. Any additional technical classes from the community college will not transfer to UNCG. You can complete regular college-transfer courses from the community college to complete additional requirements. However, be aware that UNCG accepts only 64 hours from a two-year college. While you can earn course credit for classes successfully completed beyond 64 hours, you will not earn additional hours in transfer. Because 2Plus credits

vary between degrees and intended majors, you should seek advisement from the 2Plus coordinator or the department of your intended major before returning to the community college.

Q: I completed 76 hours at the community college but received only 64 hours at UNCG. What happened?

A: UNCG will transfer only 64 hours from a two-year college. While you may earn course credit for classes successfully completed beyond this limit, you will not earn additional hours.

Q: Can I complete my degree online?

A: UNCG offers two online degree completion programs for 2Plus students: Health Studies (BS) and Business Administration (BS). In order to be admitted as a 2Plus student into these majors, the appropriate AAS degree is required. Some general education requirements needed for the bachelor's degree may not be offered online and will have to be completed as a classroom course or at another institution.

I've been admitted, what's next?

Once you have been admitted, you can follow the steps listed on [SpartanLink](#). This will guide you through all the steps you need to complete to enroll at UNCG
